

WHAT IS SYNERGY?

Synergy Solution Group is a network of peers who share the same vision, drive, and passion for the commercial HVAC industry. Our mission is to help great HVAC contractors build connections and develop meaningful relationships for everyone within their organization through training and best practices.

OUR STATS

44 NUMBER OF SYNERGY MEMBERS

\$1.8 BILLION IN TOTAL REVENUE

1,300 TECHNICIANS ACROSS NORTH AMERICA

2,100 YEARS OF COMBINED INDUSTRY EXPERIENCE

ALL MEMBERS ARE HAND-SELECTED TO JOIN SYNERGY

TOP THREE REASONS TO WORK WITH SYNERGY MEMBERS

1. Independent contractors who deliver independent solutions to you.

All Synergy members are independently owned. Our members believe your facility deserves solutions that are not dictated by manufacturers, but developed by listening, understanding, and exceeding your needs.

2. We found the very best companies in each geographic market for you.

Prospective members go through a selection process which includes interviews with our membership task force, an in-person site visit to see their facility and meet their team, and a vote from current members. We know this process takes more time on our end, but it ensures that when you partner with our Synergy member companies for startup, service, projects, or warranty opportunities you're working with the best.

3. Our culture was created to support your long-term success.

Synergy's culture was built on the foundation of commitment, humility, accountability, fun, integrity, and innovation. When you work with Synergy members you have direct access to a collaborative network of technical, operational, and sales teams who want to support your long-term success.
