HVAC Maintenance Service Technician

Job Description

Independently perform routine preventative maintenance and service on small tonnage HVAC equipment (up to 10 tons). Responsible self-starters who take the initiative to learn new skills by taking advantage of on-line and classroom training, using advanced diagnostic tools and working with senior techs. In addition to having a strong mechanical aptitude you must be able to communicate clearly, have a positive and can-do attitude, are a good team player and smile.

ESSENTIAL DUTIES (not all inclusive)

- Perform routine preventative maintenance and diagnose and repair on equipment up to 10 tons in capacity.
- Assist Senior Techs on more complex equipment including boilers, cooling towers, chillers, etc.
- Accurately document and communicate work performed.

EXPERIENCE REQUIRED

- Demonstrate fundamental understanding of refrigeration cycle, refrigerant charging, refrigerant recovery, superheat, sub-cooling, electrical theory and basic HVAC controls.
- Works on common HVAC applications such as gas heating, hydronic heating, rooftop package HVAC equipment, split system HVAC equipment, ductless split and VRF equipment, WSHP equipment, etc.
- Demonstrate proficiency in electrical and mechanical troubleshooting.
- Demonstrates a desire to grow professionally in the HVAC/R trade.
- Willingness and appetite to learn.
- Strong customer service ethic.
- Excellent communication skills
- Clean driving record

Benefits:

100% of Health, Dental & Vision Insurance
Employee Assistance Program
401K Matching
Flexible Spending Account
Vacation & Holidays
Technology Support
Paid Training With a Commitment to Continuous Learning
Average of 40+ Hours Per Week
\$24-\$35 Per Hour
