# Pipe Fabrication Shop Welder

## Job Description

**Perform daily welding and pipefitting tasks assigned by Shop Manager, while maximizing efficiency and productivity. Tasks include pipefitting, cutting and welding of manufactured products at a high level of quality and workmanship.**

## Essential Duties (not all inclusive)

- Understand in detail, spool drawings, materials, and procedures/processes.
- Reading blueprints and drawings
- Determining the appropriate welding equipment or method based on requirements.
- Setting up components for welding according to specifications
- Operating grinders to prepare or finish welded parts.
- Using precision measuring tools and clamps to setup and inspect parts.
- Welding components using manual or semi-automatic welding equipment in various positions (flat, vertical down, horizontal, or overhead)
- Positioning and welding fasteners to components
- Testing and inspecting welded surfaces and structure for flaws.

## Experience Required

- Minimum five (5) years' experience as a welder (certification a plus)
- Minimum two years as a pipe fitter.
- Ability to read and understand spool sheets, P&ID drawings, and specifications.
- MIG/Dual shield knowledge (TIG experience a plus).
- AWS/ASME certified or past certification preferred.
- Experience with Carbon steel and Stainless steel.
- Working knowledge of parts and components used in pipe fabrication.
- Pipe fabrication experience.
- Knowledge of all layouts, welding and lifting equipment.

## Benefits:

100% of Health, Dental & Vision insurance  
Employee Assistance Program  
401K matching  
Flexible spending account  
Vacation & Holidays  
Paid training with a commitment to continuous learning  
\$35-\$42 Per Hour
